Description

This high specification and lightly used Solaris Power 44 motor yacht was built in 2022 and has only had one owner from new. "COPITO DE NIEVE" is powered by twin Volvo Penta D6 IPS 650 480hp diesel engines and is capable of speeds of up to 39 knots.

The Solaris Power 44 model packs an impressive punch for a 44 foot yacht and is defined by many amenities which are usually found on a much larger vessel. Her sizeable aft sunpads, foredeck solarium and twin fold-out side balconies are ideal for relaxing at anchor. A well designed open galley allows for effortless entertaining, all while guests soak up views of the surrounding coastline from her 6 seat dining table. Below deck, she boasts a comfortable 2 double cabin and 1 bathroom layout. "COPITO DE NIEVE" is the perfect chase boat or day boat for the Balearic Islands but she is also adequately equipped for more adventurous cruising plans.

Key features include her Volvo Penta IPS Joystick controls, hydraulic bathing platform, 7kW Kohler generator, twin extendable fold-out balconies, T-Top roof with integrated electric bimini system, Garmin AIS, Tropical air conditioning and an upgraded galley which includes a Teppanyaki grill.

Spanish Lista 6a flag with EU VAT and Spanish Matriculation tax paid. Registered length 12.06m. "COPITO DE NIEVE" maintains a Spanish charter license and is a turn-key solution for a discerning buyer who plans to offset their ownership costs through charter. Full shipyard warranty valid until April 5 2024.
